- Mario Crimes It UII Memone sur un cus particular all rps. A l'occasion de ce problème Langue avait dit « Quelques partisans des causes finales ont imaginé que la lune a été donnée à la terre pour l'éclairer pendant les nuits (ses personnes la nombre pareissent pas avair tout a lan tore); dans ce cas, la nature n'aurait point atteint le but qu'elle se serait proposé, puisque nous sommes souvent privés à la fois de la lumière du soleil et de celle de la lune. Pour y parvenir, il eut suffi de mettre à l'origine la lune en opposition avec le soleil dans le plan même de l'écliptique, à une distance égale à la centième partie de la distance de la terre au soleil, et de donner à la lune et à la terre des vitesses parallèles et proportionnelles à leurs distances à cet astre. Alors la lune, sens cesse en opposition au soleil, cut décrit autour de lui une ellipse seguilable à celle de la terre; ces deux asires so seraient succède l'un à l'autre sur l'horizon; et comme à cette distance la lune n'eut point été éclipsée, sa lumière

and the for the case of the

aurait certainement remplacé celle du soleil. » 368
